Enforce stricter policies when the Chromebook is at home

Access time control at home for streaming, gaming, social network

Cyberbullying & Self-harm detection

Full Web & Youtube history

Enforce bedtime and screentime control

Managed by the school Administrator

Manage policies through your desktop or smartphone

iOS & Android Apps

Filter student's Chromebook even when they get home

As students across the country go 1:1 and bring school managed Chromebooks home, parents and guardians struggle on how to deal with the new device in town.

Blocksi Manager: Parent Dashboard allows parents and guardians to enforce their own stricter policies when the Chromebook is home, and at the same time giving them the ability to enforce bedtime and screentime control. School policy is always enforced, parent policies are active only when the Chromebook is outside of school.

The Parent Dashboard assures that 1:1 Chromebook initiative is successful whether you're a parent, teacher, or students.

Enforce bedtime and access control on streaming media, social media, Youtube, gaming and other time addictive content
